

More progress!

Remember June?

We still needed almost £1 million to complete the Hub...

Well, now it's July and things have changed!

Yesterday, Tayport Community Trust secured £250,000 from Fife Council's North East Fife Area Committee.

This is an emphatic mark of Fife Council's support for the Community Hub Project, and builds upon the £1.2 million of funding from the Big Lottery Fund which was announced in March 2017. The Trustees would like to thank North East Fife Councillors who unanimously backed this new award which brings us much closer to our £2.2 million target.

Although we will still need to work hard to raise the remaining £697,000, we are very hopeful that today's announcement will encourage other funding bodies to add their support to the project.
